- Kit de integración con @firma (22/04/2022)
- Actualización de los certificados OCSP de FNMT AC Componentes Informáticos y FNMT AC Administración Pública (26/05/2022)
- Actualización del certificado OCSP de FNMT AC Representación (21/10/2022)
- Actualización del certificado OCSP de FNMT Raíz (21/10/2022)
- Tratamiento de certificados sin apellidos diferenciados (09/11/2022)
- **Kit de certificados de prueba de FNMT-RCM (14/05/2024)**

3. A compressed file in .rar format will be downloaded.
4. Extract the file located in the path “certificados\_pruebas\_todas\_cas.rar\AC FNMT Usuarios\Nuevos\Antiguo perfil **ACTIVOS\EIDAS\_CERTIFICADO\_PRUEBAS\_\_99999999R.p12**”
5. This will be the certificate that you must install in your mobile device.

## 2. Certificate installation

1. Click on the certificate.
2. If you are asked where you want to install it, choose the device where you want to install it.
3. The message “**Profile downloaded**” will be displayed, tap Close.
4. Open the Settings app on your device. Just below our name “**Profile Downloaded**” will be displayed. Access this option.

5. **“Install Profile”** will open. Click on **“Install”**.
6. In the following screen, the password of our device must be entered.
7. A Warning screen will open indicating **“The profile is not signed”**. Click on **“Install”**.

8. On the next screen, you must enter the password: **1234**.
9. The next screen should indicate that the profile has been installed. Click on **“Done”**.

### 3. Access to the application with digital certificate

Once the digital certificate has been installed in the device, “Carpeta Ciudadana” application must be opened. A welcome screen will be displayed and finally the access screen will appear. Once in this screen, the following steps must be followed:

1. Select the “**Certificado Digital**” option and choose the “**EIDAS\_CERTIFICADO\_PRUEBAS..**” certificate.
2. Once you have clicked on “**ALLOW**”, you will be asked for an access pin for the application. Choose the one you want.
3. The application home screen will open.
4. Start testing.
